

Endwise Transport Unit for 946 / 956 Mower-Conditioner

An Endwise Transport Unit is now available for the John Deere 946/956 Mower-Conditioner from RCI Engineering LLC.

Intended Use

For transporting the 946/956 Mower-Conditioner lengthwise to decrease overall transport width.

Product Highlights

- Reduces overall width to less than 10 ft. (3.1m)
- Mower-conditioner tongue is used to pull the machine when it is on the transport trailer.
- Trailer can be pulled when empty behind a truck at slow speed with included hitch.

Ordering Information

All bundles are available through RCI Engineering LLC

Part Number	Description
JD041001	Endwise Transport Unit (Trailer Only)
JD041117	Endwise Transport Conversion Bundle for 900-Series Mower-Conditioners
JD041118	946 Mower-Conditioner Completion Bundle
JD041119	956 Mower-Conditioner Completion Bundle

The bundles will only work with the 946 / 956 Mower Conditioners.
When equipping a machine, three of four bundles are required.
The bundles are each available separately as well.

Installation Time

Assembly of the trailer requires approximately 3 hours.

Installation of the Conversion Bundle and Completion Bundle requires approximately 4 hours.

All parts, service and warranty matters are handled by RCI Engineering LLC.

Visit www.RCIengineering.com for more product information, ordering, and pictures of this bundle.
